Career Objective

A passionate UI/UX Designer skilled in creating intuitive and visually engaging digital interfaces. Experienced in wireframing, prototyping, and design systems, with a solid understanding of front-end development for effective collaboration and implementation by raw code.

Technical Skills

UI/UX Design: Wireframing, Prototyping, User Flow, Interaction Design, Design Systems

Design Tools: Figma, Canva, Photoshop, Illustrator

Research & Testing: Usability Testing, User Research, Persona Creation

Front-End Development: HTML5, CSS3, Basic JavaScript [Extra Curricular]

Project

Worked on real-time UI/UX design projects, creating user-friendly interfaces, wireframes, and interactive prototypes for various digital products through office projects. All projects are available on Behance & Dribbble. You can explore all of my work on my Behance & Dribbble.
